## Leica GS15 Receiver

[Checklist](#) | [Setup Operations](#)

With support from the NSF CI-TRAIN Initiative the Center (more information [here](#)) has been able to acquire three (3) Leica GS15 receivers and two (2) CS15 controllers. The GS15s are multi-capacity GNSS (global navigation satellite system) capable units that can simultaneously track the US NAVSTAR, Russian GLONASS and European GALEIO satellites. The units are also capable of acquiring the next generation L5 frequency.

For more information please see the [Leica web site](#)
