Nikon D200

[Checklists](#) | [Metadata Forms](#) | [Setup Operations](#)

The Nikon D200 (originally introduced in 2005) is a digital SLR camera with 10.2 million pixels over a DX format sensor (23.6 x 15.8mm) and is well suited for close-range digital photogrammetric projects. A range of fixed focus and zoom lenses are available for use with this camera, making it flexible enough for a range of project needs.
