Virtual Hampson Museum, Arkansas USA – Artifact Ark_HM_314

This data were collected as part of the [Virtual Hampson Museum Project](#). The Virtual Hampson Museum contains nearly 450 3D digital artifacts from the collections located at Hampson Archeological Museum State Park in Wilson, AR. These artifacts were scanned in full color with the [Konica Minolta VIVID 9i laser scanner](#) and were processed in the [Polyworks](#) and [Rapidform](#) processing suites. To see more data, be sure and visit the [Virtual Hampson Museum](#).

Data are available for five object in

- 1) an original high resolution mesh (OBJ format)
- 2) a decimated low resolution mesh (3D PDF).

Longer version:

The Hampson Virtual Museum was made possible by two grants from the [Arkansas Natural and Cultural Resources Council](#) in June 2007 and 2008. Assistance provided by Randy Dennis – ANCRC Program Manager. Additional assistance was provided by [Arkansas Department of Parks and Tourism](#) and the staff of the Hampson Museum including: Marlon Mowdy – Park Superintendent, Hampson Archaeological Museum State Park; Richard Davies – Executive Director; Greg Butts – State Parks Director. The following staff of the [Arkansas Archeological Survey](#) provided invaluable assistance: Robert Mainfort – Artifact descriptions, 3D Nodena visualization advice; Tom Green – Director. The [Center for Advance Spatial Technologies](#) Virtual Hampson Museum Development Team was made up of: Angie Payne – Project Director, 3D Artist of Upper Nodena Village; Snow Winters-Sasser – 3D Artist of Upper Nodena Village; Keenan Cole – Flash website and database development; Katie Simon – Artifact scanning, processing, and Access database developer; Stephanie Sullivan – Artifact processing; Scott Smallwood – Artifact scanning and processing; Christopher Goodmaster – Artifact scanning and processing; Caitlin Stevens – Artifact processing; Duncan McKinnon – Artifact scanning; Fred Limp – CAST Director and Principal Investigator, Author of [Nodena 3D Visualization FAQ Section](#)
